

Good Housekeeping

Dear Reader,

We at *Good Housekeeping* care about our readers' homes and most importantly their safety. Good Housekeeping is a proud supporter of Englert LeafGuard—the only one piece seamless debris shedding gutter system on the market today. LeafGuard has received the Good Housekeeping Seal of approval after passing a series of rigorous tests performed by the Good Housekeeping Institute.

LeafGuard, designed for homeowners concerned about the dangers of slipping off ladders or from roof-tops while cleaning their gutters. This unique gutter protection system eliminates clogs and allows for free flowing gutters by drawing rainwater down and around the underside of the hood and into the gutter. Its curved design deflects large debris while gravity channels water into the gutter. LeafGuard is manufactured by Englert Inc.—a leader in the building products industry since 1966.

Good Housekeeping Housekeeping hopes that the Institute's review of products and the Good Housekeeping Seal will help consumers make safe and well informed purchase decisions.

Best regards,

A handwritten signature in cursive script that reads "Patricia Haegele".
